

PLANT BED

Spring Cleaning

- Typically performed in April
- Apply fertilizer and pre-emergent
- Cultivate mulch as needed
- Prune & deadhead shrubs & perennials as needed
- Remove leaf debris from bed (if not removed in fall)

Summer Maintenance

- Weed beds mechanically and or chemically remove debris
- Apply pre-emergent and fertilizer
- Trim shrubs before August

Fall Clean Up

- October and or November
- Removal of leaves and debris from plant beds
- Cut back perennials and grasses as needed

General Care

- Prune & deadhead shrubs & perennials as needed
- General clean-up of leaves and debris
- Weed beds mechanically and or chemically
- Monitor plant health
- Trim shrubs and hedges up to two times per year
